

# RAISE A GLASS on World Water Day

**World Water Day** is celebrated annually on March 22 to draw attention to water issues worldwide. In 2018, the Ontario Clean Water Agency (OCWA) is proud to celebrate our 25th anniversary. We'd like to take this day as an opportunity to recognize our staff at the Lake Huron Primary Water Supply System (LHPWSS), the Elgin Area Primary Water Supply System (EAPWSS) and the Elgin Middlesex Pumping Station (EMPS) for their dedicated service. OCWA employees believe in the important role they play in the stewardship and protection of water resources and the sustainability of the communities in which they live and work.

OCWA would also like to thank the following – all of whom we work in partnership with to provide over 500,000 community members with safe, clean drinking water every day:

- LHPWSS and EAPWSS Board Members
- City of London
- St. Thomas Area Secondary Water Supply System
- Aylmer Area Secondary Water Supply System
- Regional Water Supply Staff

**Let's all raise a glass to local staff who work hard to provide their communities with access to safe water – and also to acknowledge those working around the world to help the 2.1 billion people who still live without this vital resource.**
